EDUCATION

Bachelor of Technology- Rai university

CGPA: 9.4/10

HSC -PP savani international school,surat
percentage-**71%**

SSC - 96.08pr

PROJECTS

FREELANCING PAID-PROJECT

YARITU

[Sep 2025 - Dec 2025]

[link](#) [Github-link](#) [Api documentation](#) [Demo video](#)

- Developed a scalable rental catalogue using Next.js 15 (App Router) and MongoDB/Mongoose, deployed on Vercel with a secure custom dashboard powered by Next-Auth.
- Optimized performance and asset delivery by integrating AWS S3 for scalable storage, automated CDN caching, and enhanced UI interactions using Framer Motion.
- Technologies: Next.js, React, MongoDB, AWS S3, Next-Auth, Sanity CMS, Framer Motion.

FULL STACK

Shyara Gold

[Dec 2024 - march 2025]

[link](#) [Github-link](#) [Api documentation](#) [Demo video](#)

- Built a high-performance jewelry e-commerce platform using React and Node.js, with dynamic data fetching for best-selling products and editorial content.
- Developed a robust REST API with Express and MongoDB Atlas, integrating Cloudinary and Multer for user-generated design uploads, automated image processing, and cloud storage.
- Technologies: React, Node.js, Express, MongoDB, Cloudinary, Framer Motion, Axios.

Tattoo Studio

- Open Source Contribution [March 2025 - April 2025]

[link](#) [Github-link](#) [Demo video](#)

- Loyalty & Rewards Platform: Designed and implemented a tiered loyalty system (Silver, Gold, Platinum) using React and Node.js, featuring JWT-secured user dashboards with a digital wallet for real-time reward point tracking, redemptions, referrals, and appointment history.
- Technologies: React, Node.js, Express, MongoDB, JWT, Mongoose.

YouTube Auto-Scroll Extension

[jan 2026 - feb 2026]

[Github-link](#) [Demo video](#)

- Built a Chrome extension using React that automatically scrolls YouTube pages at adjustable speeds, improving hands-free browsing. Designed a clean popup UI and integrated Chrome Extension APIs for seamless control.
- Technologies: React, JavaScript, Chrome Extension APIs (Manifest V3), HTML, CSS

UI/UX DESIGN

- **yaritu:** [Figma design of yaritu](#)
- **shyara gold:** [Figma design of shyara gold](#)
- **DocScanX:** [Figma design of DocScanX](#)
